

INTERNATIONAL HARVESTER MACHINES

For Your Use—This
IHC Mogul Oil Engine

OF all the satisfactory machines that are built for the use of farmers and contractors, this IHC Mogul oil engine is certainly one of the best. Steady as a clock, ready and willing to do its work whenever there is work to do—it is getting a reputation which might be envied by any man.

This engine has the long cylinder and piston, the large bearings and heavy crank shaft, the heavy fly wheels and split hubs, the well designed base, and all the accessories that the engine user expects to find in an IHC engine. In looks it is the aristocrat of the engine world, and its performance is in every way equal to its looks. This is the engine to buy, because of its low cost per year of service.

We have a demonstrating engine on the floor here which you should see. Until you see it, and see it at work, you cannot know as much as you should about oil engines.

Era of the First Trousers.

The first trousers worn in London were of plain, light colored cloth, and fitted very tightly; almost as tight, we may believe, as those in this country a generation ago. In the second season striped and other figured cloths were used by some, but such trousers were regarded as quite plebeian, and fit for wearing only in bad weather, when the streets were muddy, or as a sort of rough outing garb at the seaside. A favorite material for trousers worn by men of fashion was an elastic stockinet, which fitted literally "skin tight." Beneath such garments, to supply the deficiencies of nature, men were not averse to wearing false calves and other padding on their legs. Straps passing beneath the foot were used to keep the trouser legs held down in place.

One way to relieve habitual constipation is to take regularly a mild laxative. Doan's Regulets are recommended for this purpose. 25c a box at all drug stores.

CHOOSING A GOOD STALLION

Progressive Farmer Confronted With
Difficult Problem—Feet and
Legs Are Essentials.

(By J. S. MONTGOMERY, Minnesota Experiment Station.)

In the spring season the progressive farmer who keeps brood mares is confronted with the problem of choosing a stallion to which to breed. In many cases it is merely a question of eliminating the worst, as there are many communities that are not supplied with a good stallion. In many other cases, however, the saving of five dollars on a service fee plays an all too important part. A saving of five dollars on a service fee often

means a loss of \$100 or more when the colt is two years old.

When looking at a stallion it is well to ask yourself, "How much would he be worth as a gelding? If his colts are like him, will they be good market geldings? How much improvement will he make when bred to the average farm mares?" The answer to these questions will decide whether the horse is a suitable sire or not. In answering them it should be kept in mind that good feet and legs are the first essential of a marketable horse. If the stallion does not have them he cannot be expected to produce them in his offspring.

The Silent Hour.

One of the most valuable and effective methods of relaxation, recently tried for both children and mother, has been "the silent hour" immediately after luncheon. Each member of the family's privilege of reading, writing or sleeping is respected during this hour, in which children—after a few days' trial—readily co-operate.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed. As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ill it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At drugists, 50c, large box, or by mail, The Paxton Toilet Co., Boston, Mass.
